

FACE TO FACE

(Alan Humm)

It often seems our hope is blind
but only eyes of faith can comprehend his grace
We cannot grasp it with our minds
but we will understand
when we see him face to face

{ refrain: }

Face to face, face to face
we will understand when we see him on that day
All our doubts cast away
when we see him face to face

All our dreams and all our fears
Will seem so distant as he leads us through the gate
When we cross the crystal sea
on the other side
we will see him face to face

{ refrain }
